

# Practice Activity

Prepare for a First Meeting  
Using the ValuePrompter®

## Scenario

Think of an upcoming meeting you're preparing for.

## Objective

Demonstrate how the ValuePrompter is used in posing deliberate OPC questions and capturing your prospect's responses as you're preparing for a meeting with them.

## Instructions

1. Go through the Open and Probe questions under the Problem and Solution categories.
2. Add these questions under the Problem and Solution categories of the ValuePrompter.

Remember to include Confirm questions after your prospects share their thoughts. Confirm questions summarize what you have heard and repeat it back to the prospect, demonstrating active listening and ensuring mutual understanding.

## Problem Box

### Open Question:

Can you describe the specific challenges you're facing with customer retention?

### Probe Question 1:

Are customer complaints increasing due to these retention issues?

### Probe Question 2:

Is there a particular segment of your customer base that is most affected?

## Solution Box

### Open Question:

What solutions have you considered to address the retention and cost issues?

### Probe Question 1:

Do you think implementing a loyalty program would help with retention?

### Probe Question 2:

Are you considering any automation tools to reduce operational costs?
